—• *Note from the Author* —•

Dear Young Readers, Parents, and Teachers,

The internet is a wonderful place to learn, create, and connect—but just like the real world, it also requires us to be careful. Every click, message, and online interaction is an opportunity to make smart and safe choices.

This book has been created as part of the Cyber Secure Bihar initiative to make cyber safety simple, engaging, and fun through stories, comics, activities, and real-life lessons. My hope is that every child becomes a Cyber Champion who not only protects themselves but also helps family and friends stay safe online.

Remember, the strongest password is not just a combination of letters and numbers—it is awareness. When we think before we click, verify before we trust, and report cybercrime without fear, we make the internet safer for everyone.

Thank you for being a part of this mission. Together, let's build a smarter, safer, and Cyber Secure Bihar.

Stay Aware. Stay Safe. Be the Next Cyber Champ!
